

How to Set Up Your Android Device for Google Sync

1. Open the **Settings** application.
2. Open **Accounts & sync**.
3. Tap **Add account**.
4. Tap **Exchange ActiveSync**.
5. In the **Email** field, type your full Google Account email address.
6. Type your Password.
7. Tap **Next**.
8. In the Server field, type **m.google.com**.
9. In the Domain field, type **sbts.edu**.
10. Make sure the "This server requires an encrypted SSL connection" box is checked.
11. Click **Next**.
12. Make sure Mail, Contacts and Calendars are checked.
13. Click **Finish setup**.
